**Report on Student Satisfaction Survey 2020 - 2021**

A survey was initiated on 7<sup>th</sup> December 2021 to find out the satisfaction level of students on various academic and other aspects. The questionnaire was prepared by IQAC with twenty objective (quantitative) questions and one subjective (qualitative) question. A total of 676 responses were received.

**Analysis:**

**1. Quantitative Parameters:**

The benchmark score taken up for satisfactory performance is 80 considering the levels "Very Good" and "Good". That is the parameter receiving 80% of the responses with rating "Very Good" and "Good" is considered as the one that meets the benchmark and does not need any action for improvement.

From the Pie Charts, the following two parameters are identified below the category "Good".

1. Provision given for acquiring additional skills in the curriculum
2. Provision for internship/industrial visit

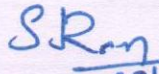

**2. Qualitative Parameter:**

A good number of students complimented the teaching learning process and the facilities available. Here the respondents suggested for focusing on Internship, Practical Training and Offline classes.

**Conclusion:**

The Offline class were not conducted because of preventive measures taken for Covid 19 pandemic and at present the institution resumed the offline classes.

Action plan has to be initiated to acquire additional skills in the curriculum and provide opportunities for internship/industrial visit wherever required.
