

An Intradepartmental work shop - “Screening of Indigenous Herbs - Bioassay guided Fractionation Approach” was conducted on 28.02.2019 by the Department of Biochemistry. The workshop entitled: “Screening of Indigenous Herbs - Bioassay guided Fractionation”. **Dr. C.T. Sulaiman, Scientist**, Centre for Medicinal Plants Research (CMPR), Arya Vaidya Sala, Kerala, has consented to address the students on this workshop. The welcome address was given by **Dr. K. Devaki**, The Head, and Department of Biochemistry to the guest speaker. The students (24 pupils) and faculty members (10 members) are participated in the workshop. The workshop was started at 9.30 am and he was delivered the protocol regarding to the bioassay guided fractionation as well as practical. The practical of the bioassay guided fractionation workshop was started at 11.30 am. The students were learnt the practical experience on fractionation by thin layer chromatographic (TLC) method. Interestingly students were raised queries and sought clarification on the bioassay guided fractionation. The vote of thanks was given by **Dr. K. Devaki**, The Head, Department of Biochemistry and the workshop was successively completed at 3.30 pm.
