REPORT

WEBINAR ON 'BLOCK CHAIN TECHNOLOGIES'

A Webinar on 'Block Chain Technologies' was conducted by the department of Computer Science and Engineering and **Dr.D.Sudharson**, Assistant Professor, Department of CSE, Hindusthan College of Engineering and Technology, Coimbatore on **31st December 2020**. Total of **134** students from II-year and III-year students of the department of Computer Science and Engineering attended the webinar.

Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. Blockchain is ideal for delivering information because it provides immediate, shared, and completely transparent information stored on an immutable ledger that can be accessed only by permissioned network members. A blockchain network can track orders, payments, accounts, production, and much more. And because members share a single view of the truth, all details of a transaction end-to-end is visible, giving us a greater confidence, as well as new efficiencies and opportunities. Dr.B.ArunKumar welcomed the gathering and Dr.R. Dhanapal greeted vote of thanks.
