Dear Sir,

Sub: Requesting for SEED money of 20,000 to inculcate innovation among first-year students.

I have taught first years students from Biotechnology, Food Technology, Mechanical, Automobile and Computer Science Engineering in the academic year of 2018-2019. In which, a group of students from CSE have expressed their interest to learn and enhance their engineering skills. In this regard, if permission is granted, I may assign them in a mini project (that is related to Smart City theme) and I may act as their supervisor. If their interest is nurtured, their skills will advance and they will be equipped to conduct extra-ordinary project work in their final year.

I humbly request your permission and the following facilities to initialize the project activities from the ODD semester of 2019: (i) the seed money of 20,760; (ii) a classroom and (iii) access to an existing airconditioning unit in FoE (UM) building.

Attachment: The seed money proposal.
