Sir,

Sub: Request for seed money to execute cell based works and identification of anticancer molecules -reg

CEO

With reference to the above, I would like to inform you that I am currently executing cell based work to delineate the molecular mechanisms behind the therapeutic efficacy of indigenous herbs Aloe vera, Papaya, Annona Muricata and compound isolated from them such as Aloin, Aloe Emodin, Alocin, alpha tocopherol, Naringenin in a variety of cell lines such as PA-1, PC-3, A549, MDA-MB-231, SKBR-3. To execute this, I request you to kindly sanction me Rs.3,00,000.00 as seed money. The requested money would be used to procure a CO2 incubator. I assure you that the proposed work would be pursued to its logical conclusion and a promising molecule would be identified for the treatment of cancer.

Thank you,
