Solid Waste Management

Solid wastes refer to waste paper, old answer scripts, old newspapers, broken glassware in the laboratory, plastics and waste construction materials.

Solid wastes such as construction materials including broken bricks, cement blocks, iron rods, shuttering wastes which form the major part are cleared by the building contractor as the entire construction related works are outsourced. The Institution does not deal with such type of solid wastes on its own.

Old newspapers and answer scripts are sold to vendors once in a year, after calling quotations in the sealed cover. The quotation will be opened by the Members of the Purchase Committee in the presence of vendors and the rate at which the old newspapers will be finalized after negotiation with vendors.

Tree leaves, wooden logs are stored in Vermi-compositing yards periodically. This composite manure is used as organic manures for trees, shrubs, grass and in herbal garden within the Institution. Excess manures are distributed to needy people in adopted villages.

Fig.13 Solid Waste Management

Liquid Waste Management

The Institution has installed two Sewage Treatment Plants with 3.5 lakhs capacity. Liquid wastes such as kitchen waste, dining hall waste, canteen liquid waste and used water are connected through pipeline and collected in the liquid collection tank and processed in the Sewage Treatment Plant (STP). This treated water is supplied through pipes to irrigate the garden, trees, landscaping etc. Solid wastes generated in the STP are disinfected and used as manure.

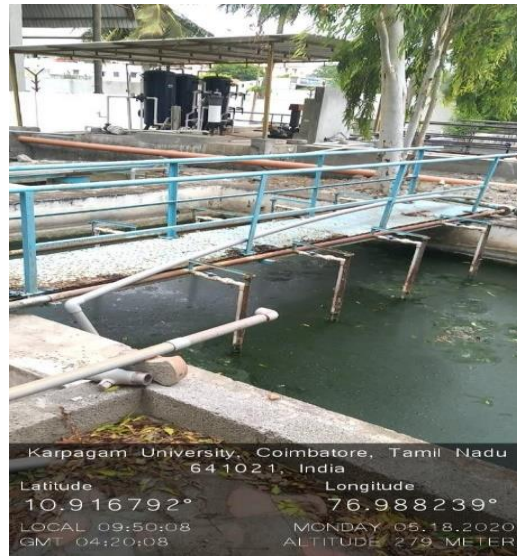

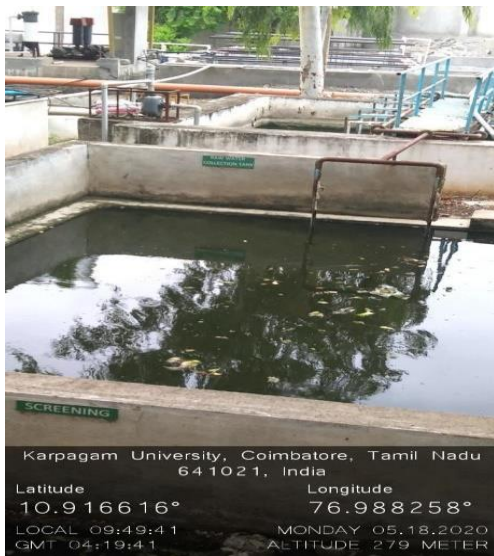

Fig.14 Liquid Waste Management

Other than the general provisions the following facilities are also available in the campus

- General Stores
- Stationery & Photocopy Facility
- Gymnasium
- Battery Car Facility for comfortable mobility of guests / VIPs.

Overall Ambience

The Institution is an educational oasis located in a peaceful, pleasant sprawling, green and lush campus extending 26 acres with a highly architectural and aesthetically designed buildings offering a goldmine of opportunity to choose from a wide spectrum programmes and co-curricular choices that provide diverse intellectual and hands-on experience. KAHE exemplifies excellence in every nook and corner. From modern classrooms to hygienic canteens, the highest emphasis is laid on ensuring that student life is enriching in every sense.

A green campus which has adequate ventilation and lighting for the mind, body and soul with enough flexibility for students to explore in their own distinctive way. The students, faculty and researchers are given appropriate workplace for sitting, conducting and experimenting. They can also use common space and facilities in the campus. The Institution is located with a peaceful and pleasant environment for students. The campus is located at Seerapalayam Village Panchayat at the Junction of Coimbatore - Nagapattinam National Highway NH83 and NH544 of Cochin-Salem National Highway.
